

## Department of Pediatrics

**CAT 1 Basic Privileges: Patient management, including H & Ps and diagnostic and therapeutic treatments, procedures and interventions including the areas described below and similar activities.**

Requiring a level of training generally associated with persons who have completed the residency program prescribed by the American Board of Pediatrics, and a level of skill and ability generally associated with persons who are diplomates of that board.

**A Preventive medical services and medical care of children from birth through adolescence**

(excluding those areas described in Category 3 below.)

**CAT 2 Subspecialty Privileges: Patient management at this level encompasses Category 1 patient management, the areas checked below and similar activities.**

Requiring a level of training, skill and ability generally associated with persons who are diplomates of the American Board of Pediatrics and of the subspecialty board(s) designated below.

**A Clinical Genetics**

**B Neonatal/Perinatal Medicine (includes Peritoneal Dialysis and Parenteral Nutrition)**

**C Pediatric Cardiology**

**D Pediatric Endocrinology**

**E Pediatric Hematology/Oncology**

**F Pediatric Nephrology**

**G Pediatric Neurology**

**H American Board of Allergy and Immunology**

**I Pediatric Pulmonology**

**J Pediatric Gastroenterology and Nutrition**

**K Pediatric Rheumatology**

**L Adolescent Medicine**

**M Pediatric Critical Care Medicine**

**N Pediatric Emergency Medicine**

**O Pediatric Infectious Diseases**

**P Behavioral Pediatrics**

**Q Pediatric Rehabilitation & Physiatry**

**R Hospice and Palliative Medicine (HPM)**

**01 Basic privileges in Hospice and Palliative Medicine**

Requiring a level of training generally associated with persons who are

Diplomates of the American Board of Medical Specialties, Hospice and Palliative Medicine and as defined by the ACGME core competencies for fellowship in HPM.

- 02 Palliative Sedation - (limited to Pediatric Palliative Care Attending)**
- 03 Recommendations for intravenous infusion of medications**
- 04 Prescription of controlled substances (valid DEA certificate required)**
- 05 Management of patient-controlled analgesia**
- 06 Symptom management including patient and family education, psychosocial and spiritual support, and appropriate referrals for other modalities such as invasive procedures**
- 07 At end of life, removal of endotracheal tubes and other life-sustaining therapies**
- 08 Telemedicine**
- CAT 3 Special Privileges: Patient management at this level encompasses Categories 1 and 2 (if checked) patient management, the items specifically marked below and similar activities**  
 Requiring a level of training, skill and ability generally associated with persons who are diplomates of the American Board of Pediatrics and who have had additional training and/or experience in specific patient management problems.
  - A Pediatric cardiac catheterization**
  - B Chemotherapy for malignant disease**
  - C Renal Procedures**
    - 2 Hemodialysis, Peritoneal Dialysis, Continuous renal replacement therapy**
    - 4 Percutaneous renal biopsy**
    - 6 Percutaneous iliac crest bone biopsies**
  - D Cardiopulmonary support (intensive care)**
  - E Pulmonary diseases**
    - 2 Fiberoptic bronchoscopy**
  - F Bone marrow transplant**
    - 2 Leukapheresis for peripheral blood stem cell transplantation**
  - G Behavioral pediatrics**
  - H Infectious diseases**
  - I Gastroenterology procedures**
    - 2 Upper GI endoscopy and biopsy**
    - 4 Endoscopic foreign body removal**
    - 6 Pneumatic dilation of esophagus**
    - 8 Dilation of esophageal and duodenal strictures**
    - 10 Endoscopic control of bleeding esophageal variceal**

- 12 Endoscopic control of non-variceal bleeding sites**
- 14 Percutaneous placement of gastrostomy**
- 16 Endoscopic placement of transpyloric feeding tube**
- 18 Suction rectal biopsy**
- 20 Percutaneous liver biopsy**
- 22 Endoscopic retrograde cholangiopancreatography**
- 24 Rigid anoscopy and sigmoidoscopy**
- 26 Flexible sigmoidoscopy/short colonoscopy**
- 28 Colonoscopy**
- 30 Endoscopic polypectomy**
- 32 Colonoscopic control of bleeding sites**
- 34 Ambulatory esophageal pH monitoring**
- 36 Anorectal manometry**
- 38 Esophageal manometry**
- 40 Implementation and management of parenteral nutrition**
- 42 Gastrostomy tube management**
- J Extracorporeal membrane oxygenation and slow hemofiltration**
- K Moderate Sedation**  
(Sedation Module Required prior to granting of privilege)
- L Deep Sedation**  
(Board Certification in Pediatric Critical Care  
OR  
PALS Certification and Moderate Sedation Module Required prior to granting of  
privilege)
- M Pediatric Rehabilitation & Physiatry**
  - 1 Bo-Tox Injection with guidance**
  - 2 Baclofen Pump Refill and Telemetry**
- N Fluoroscopy**  
(fluoroscopy supervisor certification required)
- O Provider performed microscopy**  
(annual competency module required)
  - 1 Urine**
  - 2 KOH**
  - 3 Wet Prep**
  - 4 Fern**
  - 5 Pinworm**
- P Pediatric Transport Privileges**

- 1 Resuscitation and stabilization of premature and term neonates, infants, children and adolescents**
- 2 Ventilatory management of intubated premature and term neonates, infants and adolescents**
- 3 Use of pressor agents for the maintenance of blood pressure and cardiac function**
- 4 Use and administration of artificial surfactant compounds**
- 5 Short term management of complex congenital heart disease including treatment of arrhythmias**

**Q Pediatric Transport Procedures**

- 1 Umbilical artery catheter placement**
- 2 Umbilical vein catheter placement**
- 3 Percutaneous indwelling arterial line**
- 4 Intraosseous line**
- 5 Thoracentesis**
- 6 Thoracostomy tube placement**
- 7 Emergency pericardiocentesis**
- 8 Emergency paracentesis**
- 9 Endotracheal intubation**
- 10 Partial exchange transfusion**
- 11 Cardiac defibrillation**
- 12 Moderate Sedation**  
(Sedation Module required prior to granting of privilege)

**R Acupuncture**

Initial Criteria: Completion, by a licensed physician, of a 200-hour ACCME-accredited course in Medical Acupuncture which consists of both theory and training. This course will allow the physician to perform acupuncture, acupressure, and moxibustion.

Maintenance Criteria: Documentation of at least 10 procedures.

**S 1 - Endocrinology - Histrelin implant and removal procedural privilege**

Initial Criteria: Sub-specialty certification in Pediatric Endocrinology or Adolescent Medicine, AND 3 procedures observed with proctor

Maintenance Criteria: At least 6 procedures performed over the past 24 months

Proctoring Criteria: 3 proctored procedures with successful outcomes

**S 2 - Endocrinology - Testopel implant procedural privilege**

Initial Criteria: Sub-specialty certification in Pediatric Endocrinology or Adolescent Medicine, AND 3 procedures observed with proctor

Maintenance Criteria: At least 6 procedures performed over the past 24 months

Proctoring Criteria: 3 proctored procedures with successful outcomes

**CAT 4 Limited Privileges: Patient management limited to the areas specified below.**

(For members of the Associate Staff, these areas must correspond to written protocols approved by the Credentials Committee of the Medical Staff.)

- A Behavioral pediatrics only**
- B Pediatric dentistry only**
- C Pediatric dermatology only**
- D Pediatric intensive care only**
- E Pediatric neurology only**
- F Pediatric psychiatry only**
- G Pediatric pulmonary disease only**
- H Pediatric surgery and intensive care only**
- I Pediatric transplant only**
- J Pediatric hemodialysis only**
- K Well baby care only**
- L Pediatric Transport Privileges**
- 2 Resuscitation and stabilization of premature and term neonates, infants, children and adolescents**
- 4 Ventilatory management of intubated premature and term neonates, infants and adolescents**
- 6 Use of pressor agents for the maintenance of blood pressure and cardiac function**
- 8 Use and administration of artificial surfactant compounds**
- 10 Short term management of complex congenital heart disease including treatment of arrhythmias**
- M Pediatric Transport Procedures**
- 2 Umbilical artery catheter placement**
- 4 Umbilical vein catheter placement**
- 6 Percutaneous indwelling arterial line**
- 8 Intraosseous line**
- 10 Thoracentesis**
- 12 Thoracostomy tube placement**
- 14 Emergency pericardiocentesis**

- 16      Emergency paracentesis**
- 18      Endotracheal intubation**
- 20      Partial exchange transfusion**
- 22      Cardiac defibrillation**
- 24      Moderate sedation**

**ADMSE      Admitting Services**

I expect to admit and care for patients under my own name on the following inpatient services:

- PM      Pediatric Medicine Service**
  - SP      Pediatric Surgery Service**
  - NE      Neonatology Service**
  - WB      Well Baby Service**
